<Prototype 1: Request Consulting>

Appendix 5. Notification pops up after the request form submission.

<Prototype 1: Story / Store Link>

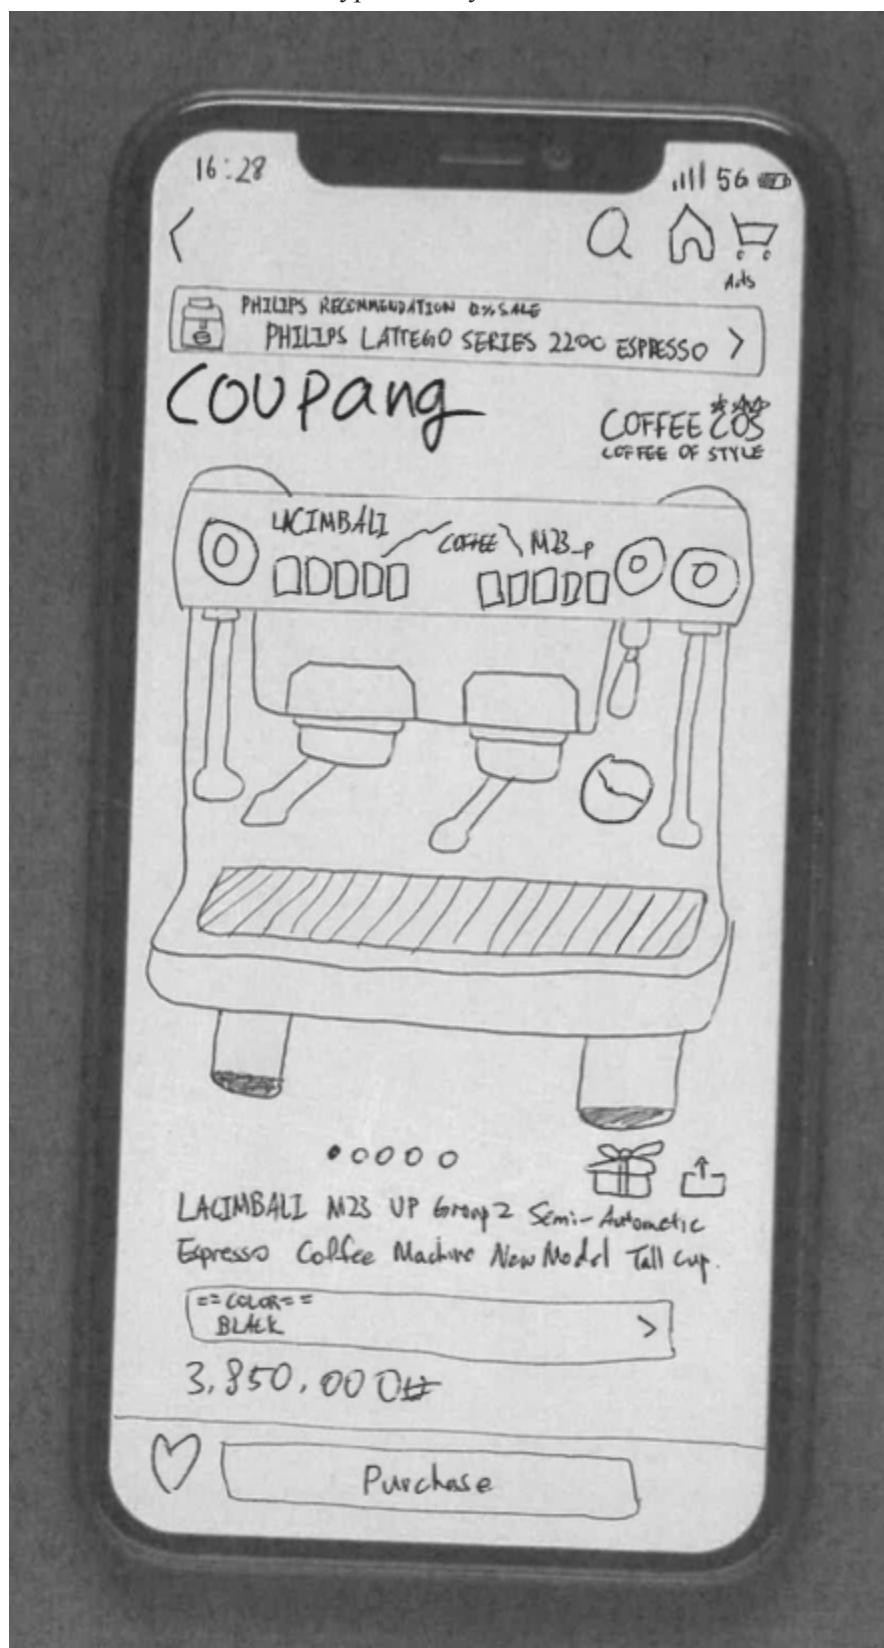

Appendix 6. Home page that displays list of stories and a search bar

<Prototype 1: Story / Store Link>

Appendix 7. Story details page containing cafe owner's story, store link buttons and a consulting request button.

<Prototype 1: Story / Store Link>

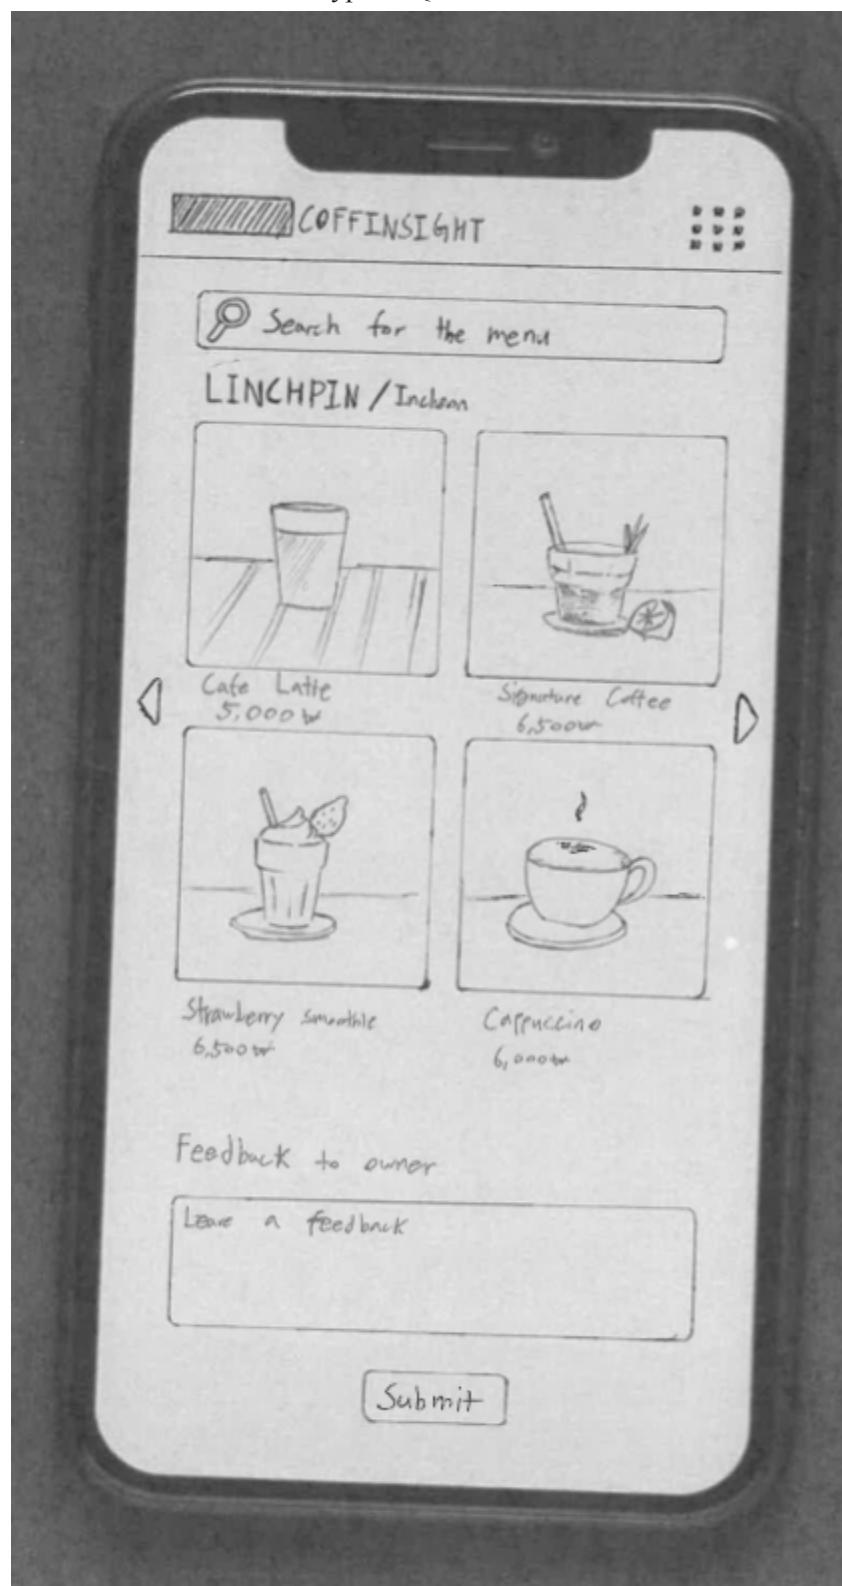

Appendix 8. Store link buttons redirects users to the external store page.

<Prototype 1: QR Menu Code>

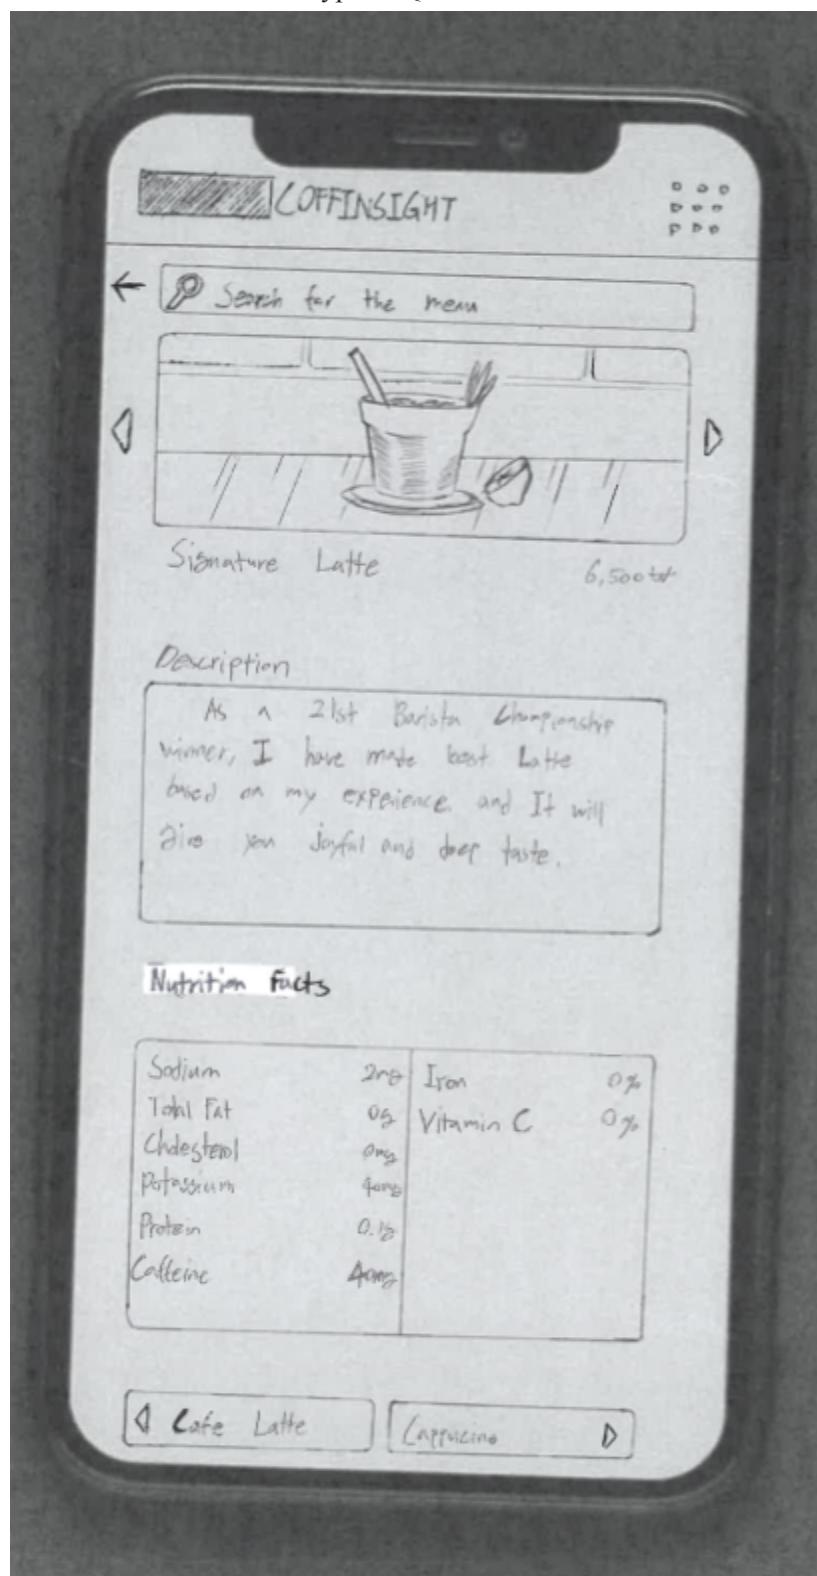

Appendix 9. Users scan the QR with a phone camera.

<Prototype 1: QR Menu Code>

Appendix 10. The website displays menus with pictures and brief descriptions, and also provides feedback form to the cafe owner.

<Prototype 1: QR Menu Code>

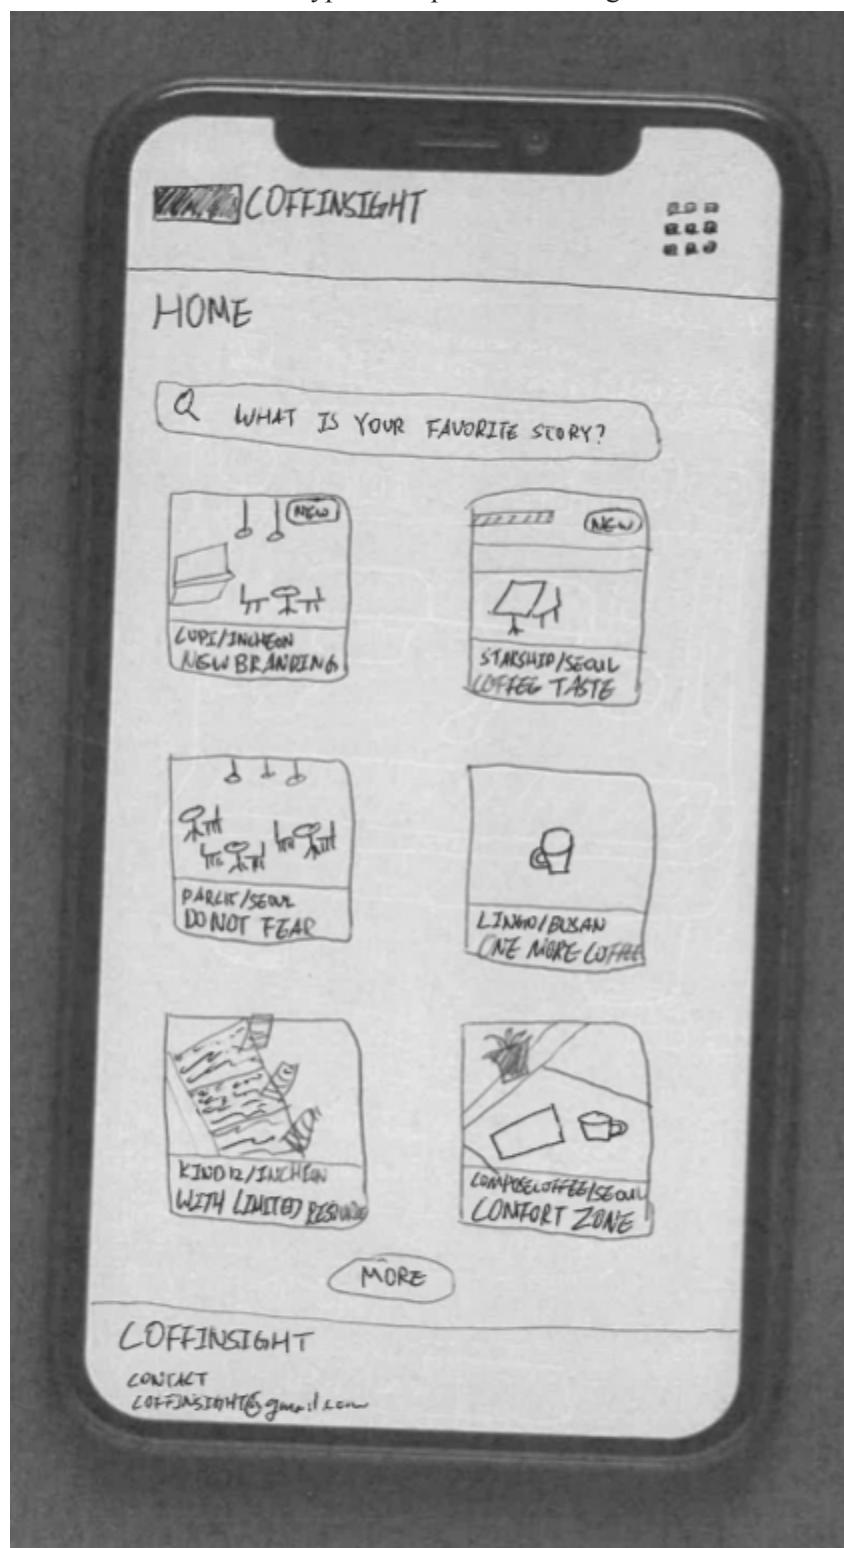

Appendix 11. After clicking the menu, the website displays the detailed information about the menu and more pictures of it.

<Prototype 1: QR Menu Code>

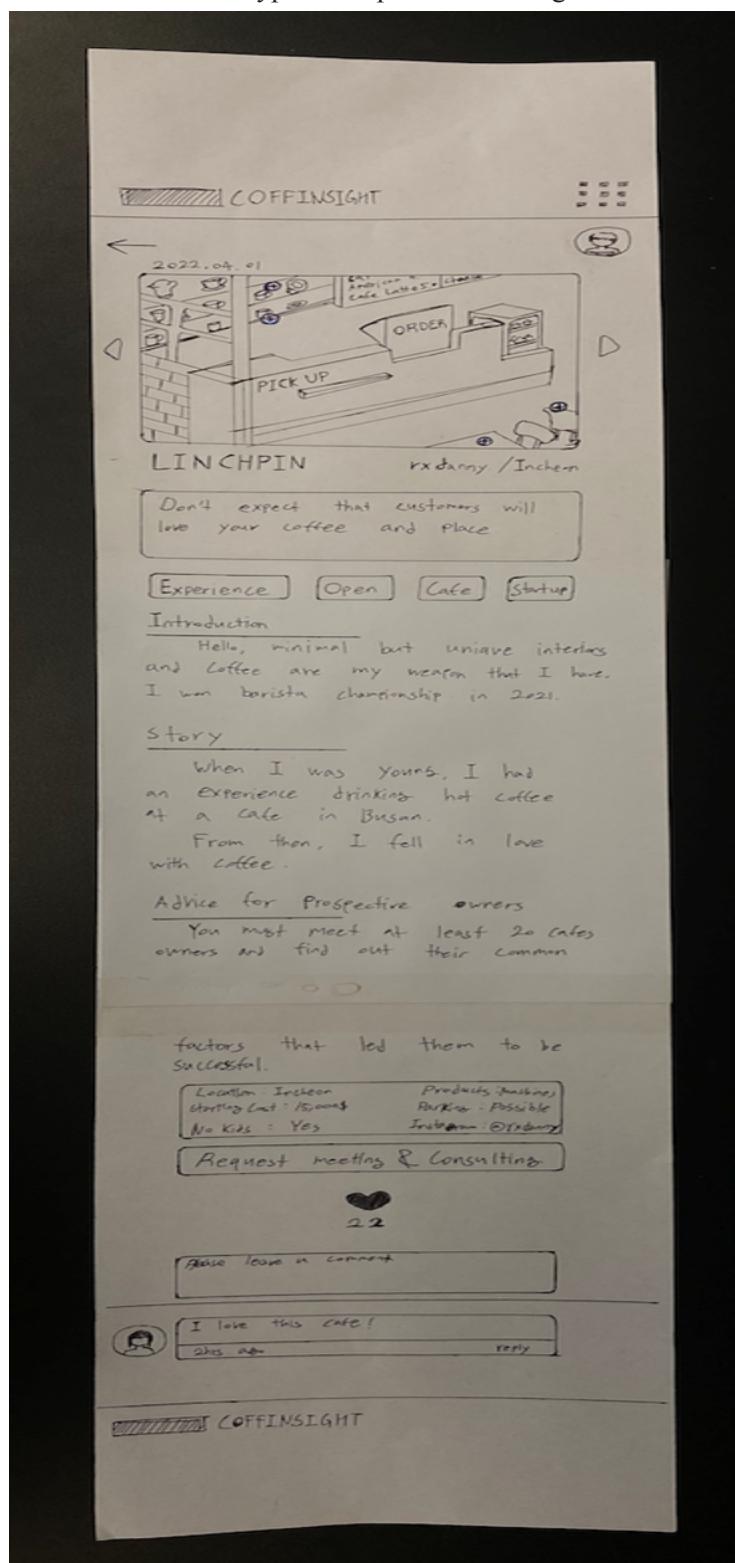

Appendix 12. Clicking the picture on the top displays the menu picture in the original size.

<Prototype 2: Request Consulting>

Appendix 1. Home page that displays list of stories and a search bar

<Prototype 2: Request Consulting>

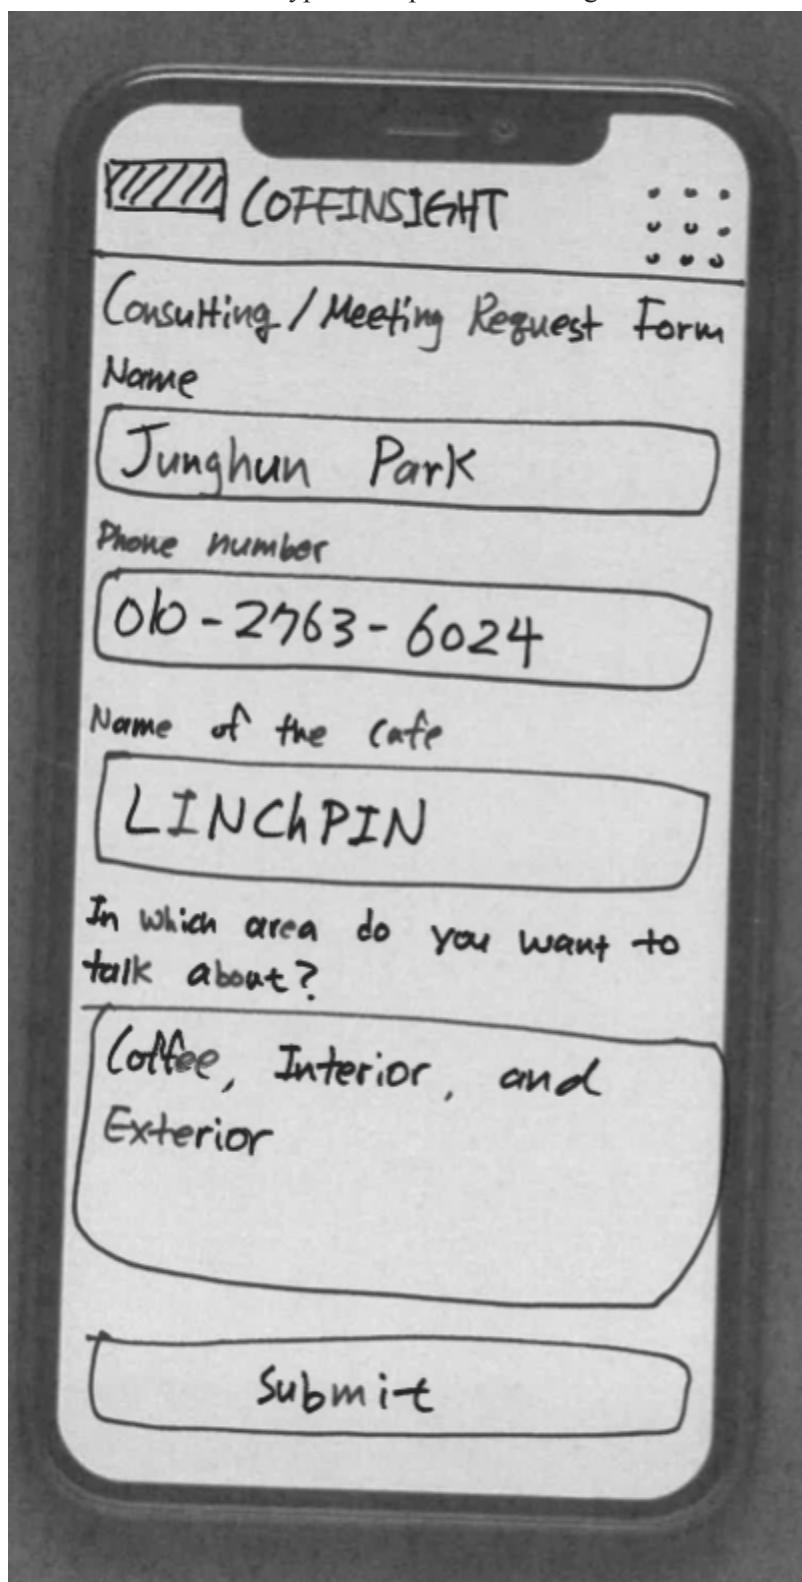

Appendix 2. Story details page containing cafe owner's story, store link buttons and a consulting request button.

<Prototype 2: Request Consulting>

The image shows a hand-drawn prototype of a mobile application interface. At the top left is a logo consisting of a hatched square followed by the text "COFFINSIGHT". At the top right are three small circles arranged in a triangle. Below the logo is the title "Consulting / Meeting Request Form". The form consists of several input fields: "Name" with a large rectangular input box, "Phone number" with another large rectangular input box, "Name of the cafe" with a large rectangular input box, and a question "In which area do you want to talk about?" with a large rectangular input box below it. At the bottom is a rounded rectangular button labeled "Submit".

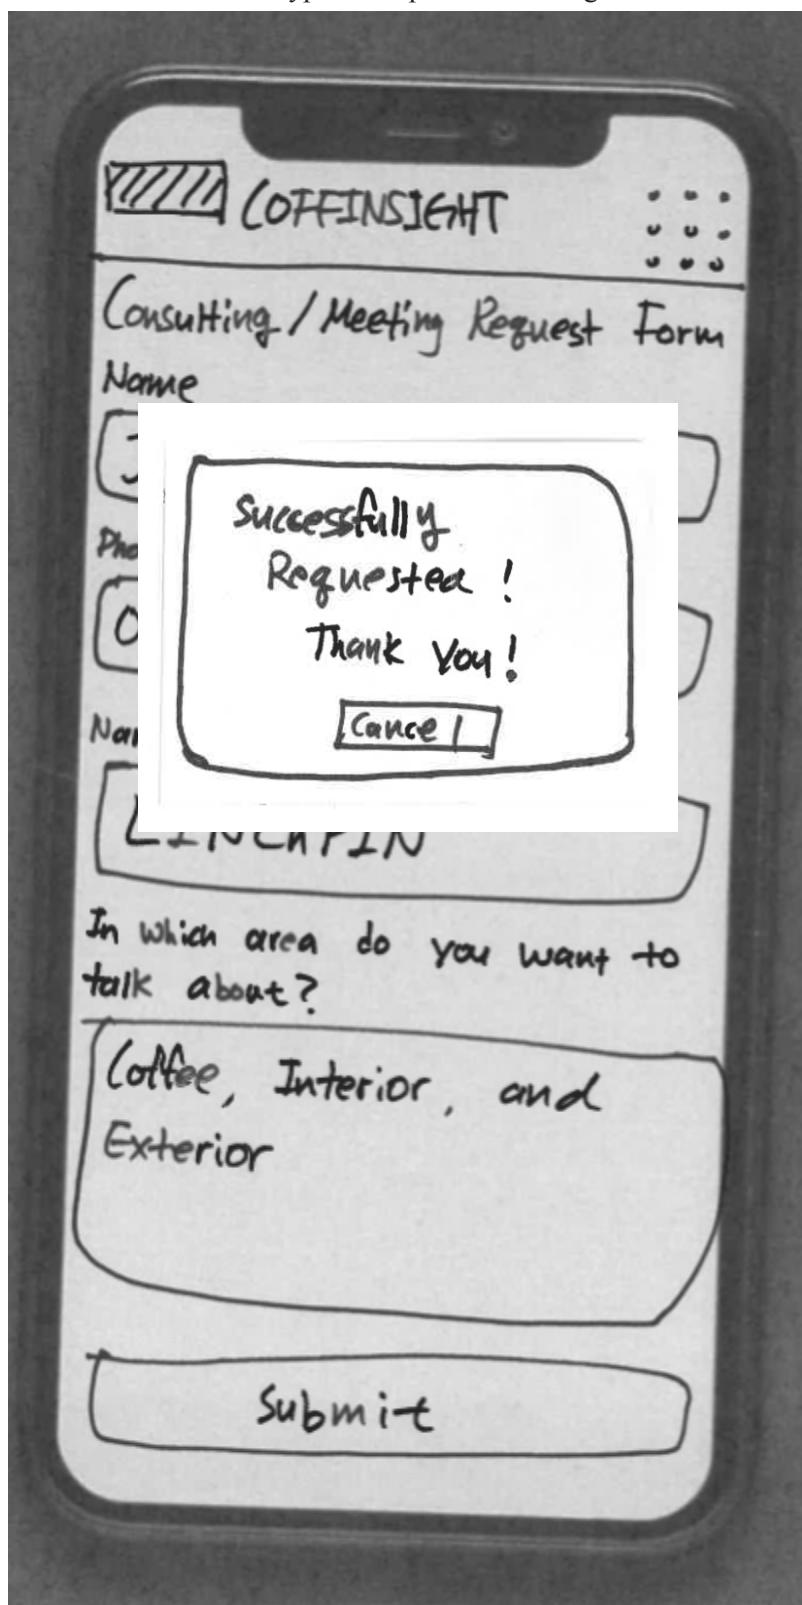

Appendix 3. Fill out the consulting request form

<Prototype 2: Request Consulting>

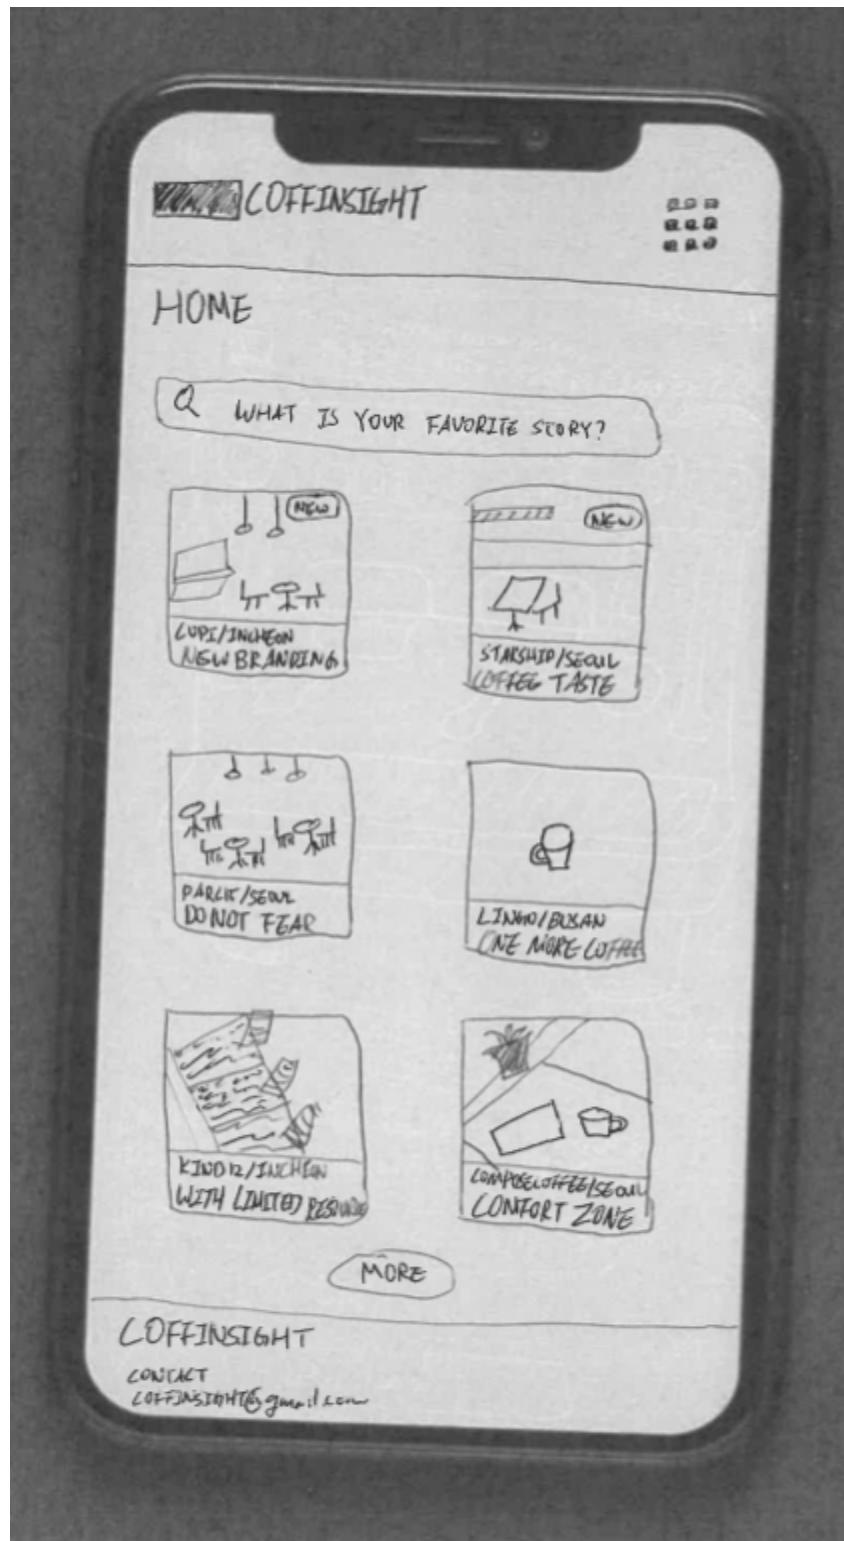

Appendix 4. User view of complete request form.

<Prototype 2: Request Consulting>

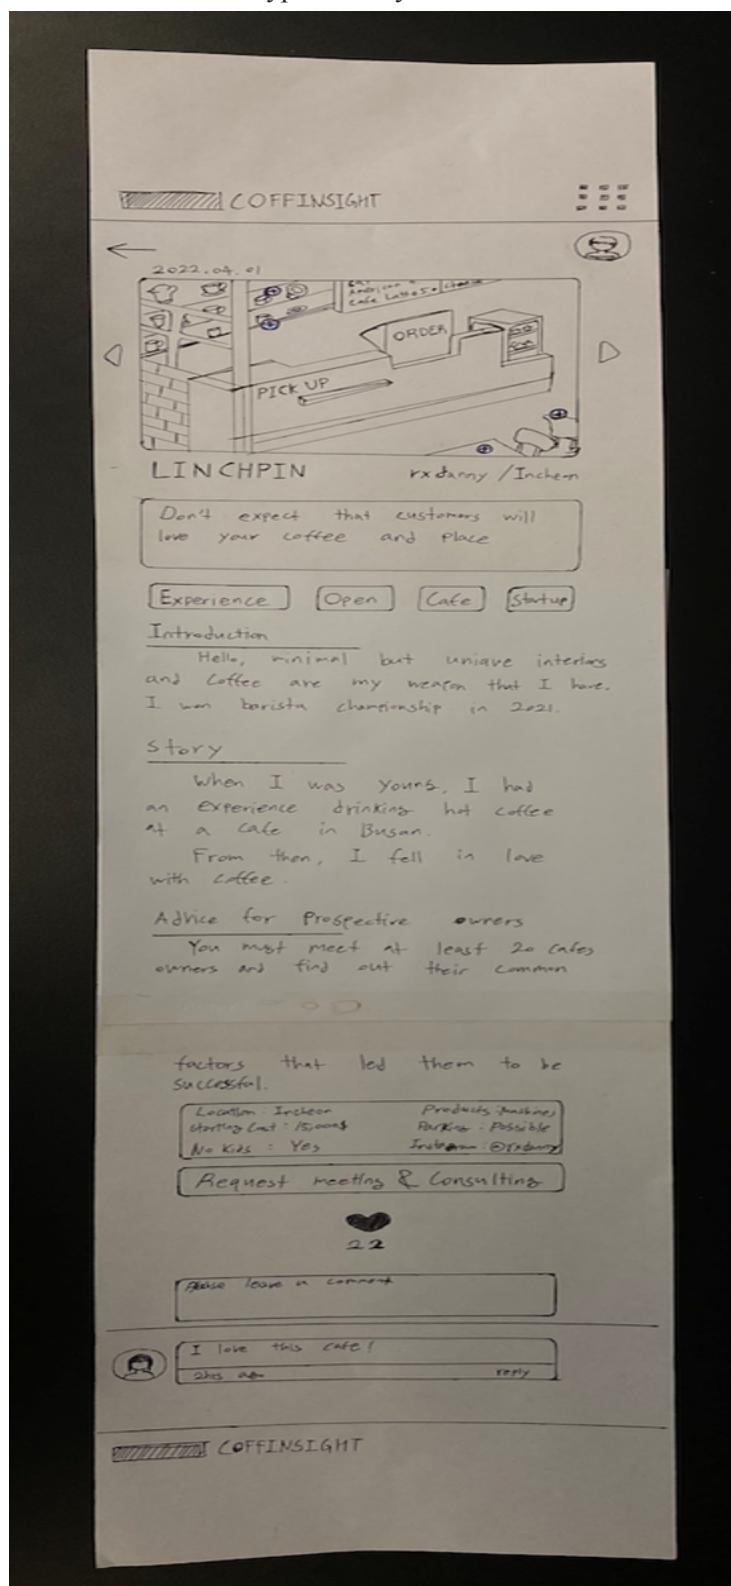

Appendix 5. Notification pops up after the request form submission.

<Prototype 2: Story / Store Link>

Appendix 6. Home page that displays list of stories and a search bar

<Prototype 2: Story / Store Link>

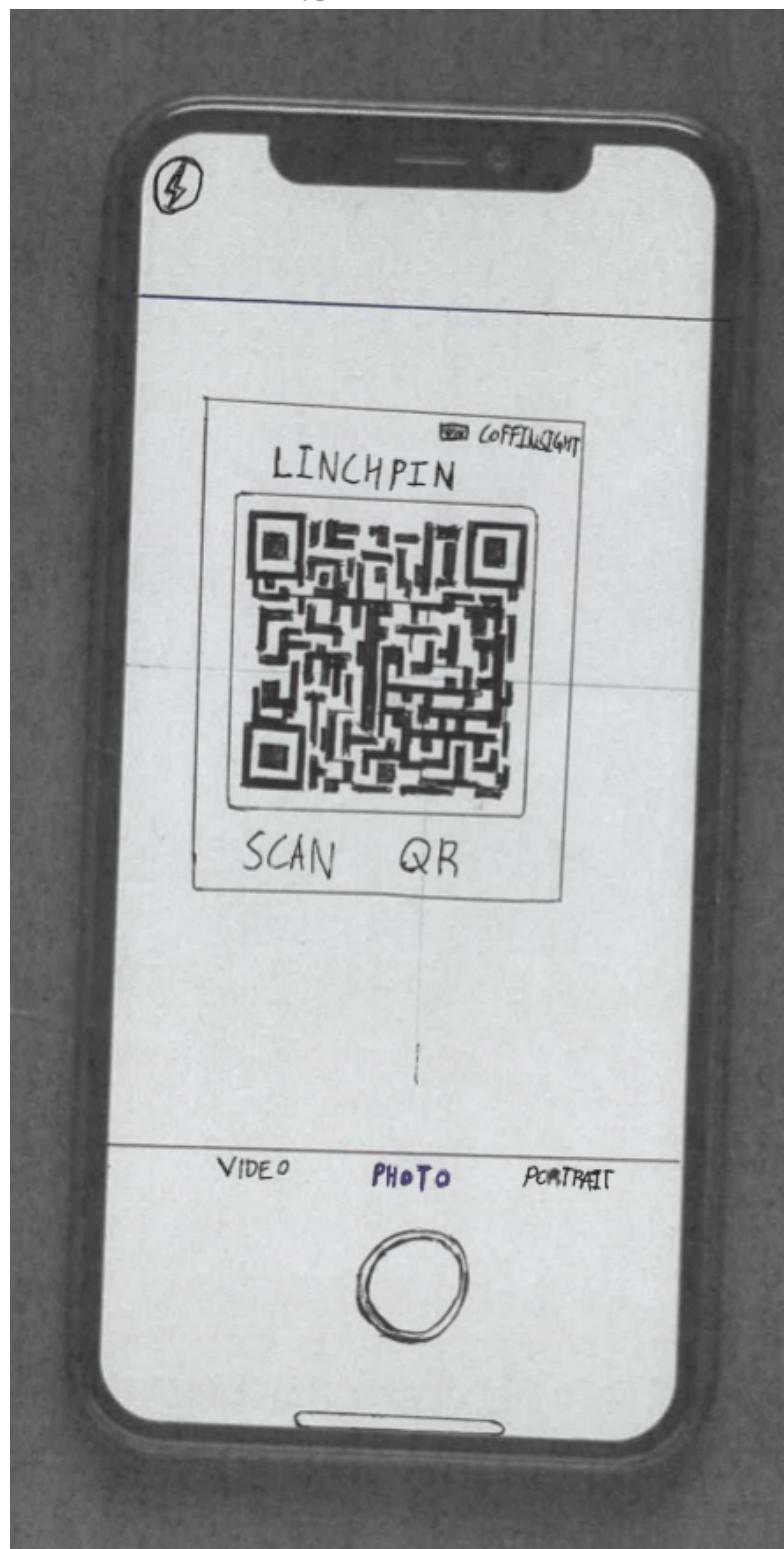

Appendix 7. Story details page containing cafe owner's story, store link buttons and a consulting request button.

<Prototype 2: Story / Store Link>

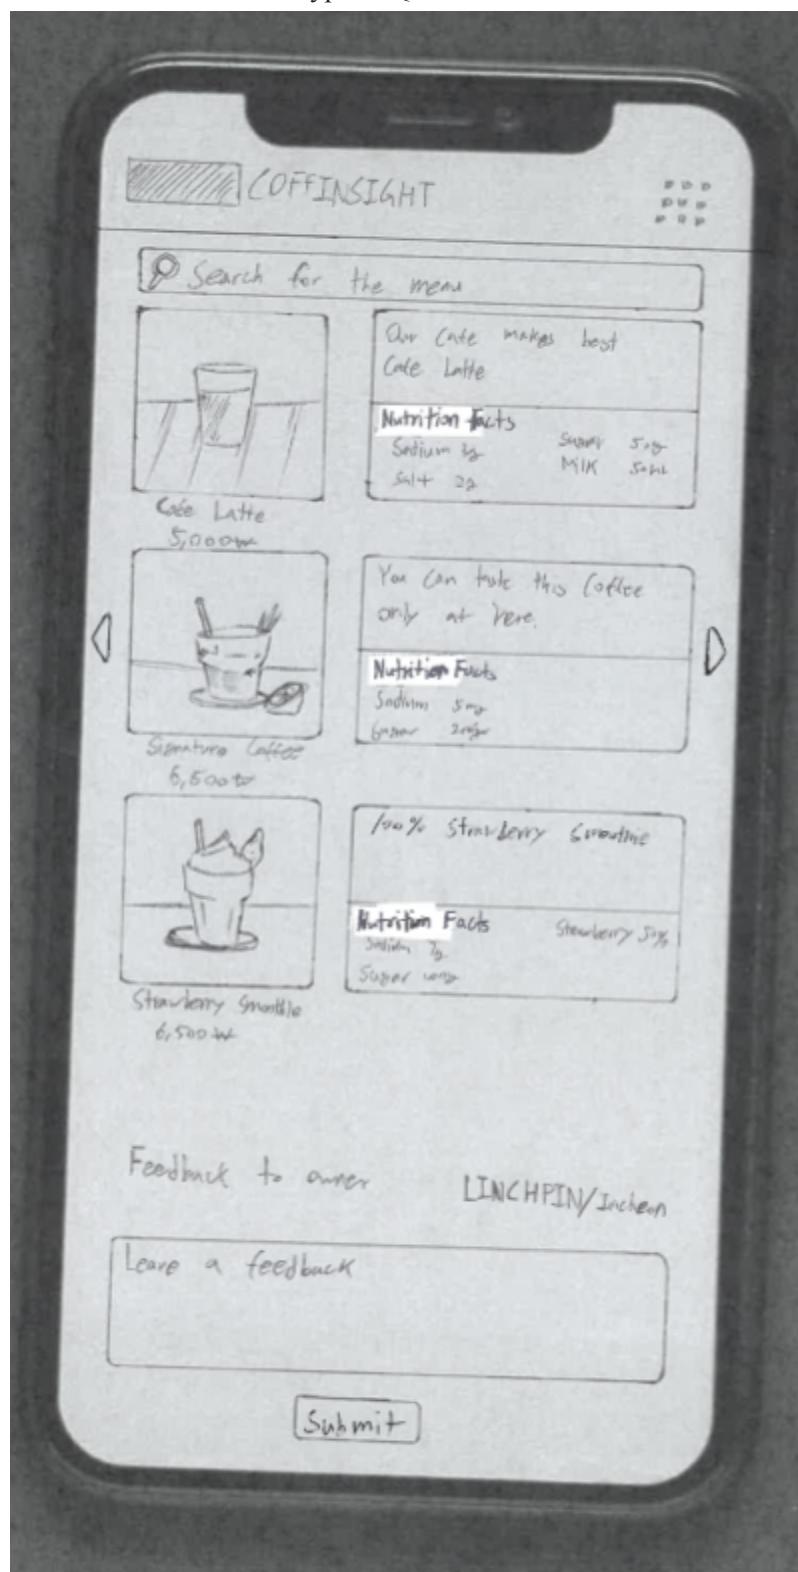

Appendix 8. Store link buttons redirects users to the external store page.

<Prototype 2: QR Menu Code>

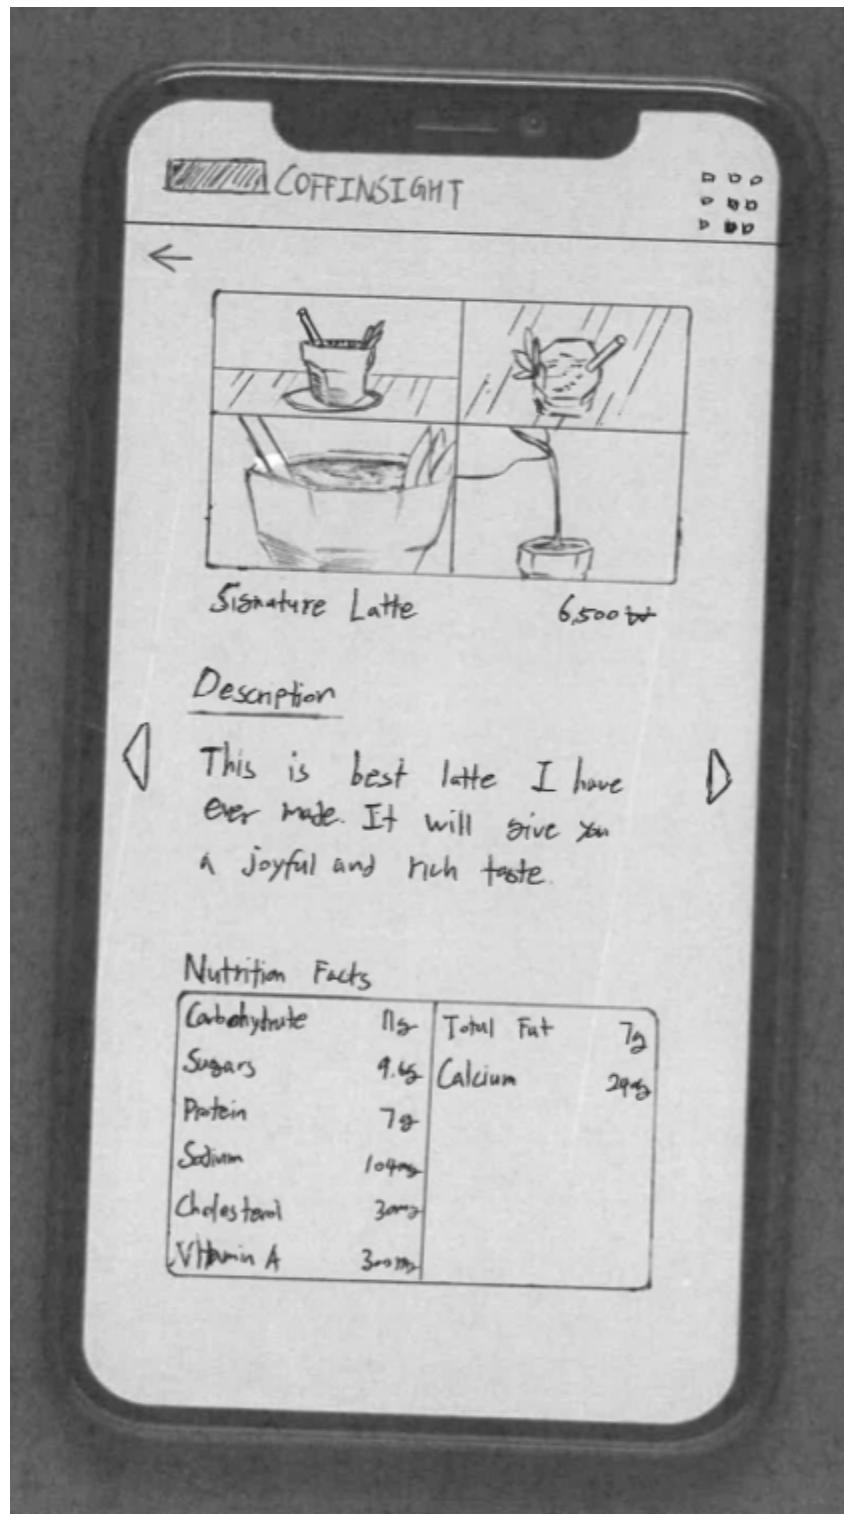

Appendix 9. Users scan the QR with a phone camera.

<Prototype 2: QR Menu Code>

Appendix 10. The website displays menus with pictures and brief descriptions, and also provides feedback form to the cafe owner.

<Prototype 2: QR Menu Code>

Appendix 11. After clicking the menu, the website displays the detailed information about the menu and more pictures of it.

<Prototype 2: QR Menu Code>

Appendix 12. Clicking the picture on the top displays the menu picture in the original size.
